Hi David,

Please proceed. I am very excited about your ideas (and boilerplates given the quick turn-around time!)

Happy Thanksgiving,
Pam

Subject: Re: CUNY OAA AI Innovation Fund

Hi Pam,

This looks like a good opportunity, although of course time is short. Fortunately, I have a lot of boilerplates, so I submit for your consideration a proposal idea.

CHI aligns deeply with Priority areas 1, 2 and 4.
Note I am preparing a course that almost exactly aligns with priority 4 ("Addressing Ethical & Social Implications of AI"). It is called Societal and Ethical Impact of Data Science: Here is the current draft syllabus.

Here is a link to the Repository with the entire class as it currently stands.
You will note three different AI courses under development.
https://github.com/CHI-CityTech/AI-Curriculum

I have also attached a high-level discussion document for you to see if this works based on whatever other initiatives you are proposing, as well as a tentative formal proposal.

Let me know how you wish to proceed.

Thanks!

David

Dear Colleagues,

A CUNY supported AI funding opportunity. Unfortunately, this is due Dec. 1.

Best,
Pam

Subject: CUNY OAA AI Innovation Fund

Dear Colleagues,
Apologies for the delay. As promised, please find attached a copy of CUNY's OAA AI Innovation Fund program. I've attached both a Word and PDF version for your convenience. As I mentioned in Friday's email, all proposals will be grouped by college and shared with you for prioritization. You are encouraged to engage your IT, procurement, and legal teams, as appropriate, to assess each proposal's feasibility. If you have any questions throughout this process, please do not hesitate to reach out to Evan (cc'd).

Note, in addition to funding new projects, funds can be used to enhance or expand existing projects at your colleges.

Best,
Alicia

Subject: Just a heads up - CUNY Academic AI RFP coming

Dear Colleagues,
I wanted to let you know that you will be receiving an announcement for a CUNY Academic AI Innovation Fund program on Monday. CUNY has allocated $500k to create this fund. All full-time faculty, academic administrators and staff will be eligible to apply for up to $25k for projects that fall within the below 4 priority areas. I reviewed the proposal at the Council of Presidents. Your presidents and deans requested that you review submitted proposals and prioritize them. All requests will be grouped by college and shared with Provosts for initial review and prioritization before being reviewed by OAA and the advisory group.

AI Education & Literacy
AI-Enabled Student & Academic Support
AI in Courses
Addressing Ethical & Social Implications of AI

On Monday, I will send you the proposal for dissemination at your colleges.
Have a wonderful weekend.
If you have any questions, feel free to reach out.
Best,

Alicia
